According to Grey's Anatomy textbook, "The nervous system controls and coordinates all organs and structures of the human body."

When a spinal vertebra becomes subluxated, it acts similar to a "blown fuse" and interferes with the function of that nerve. If the fuse supplying your air conditioner became overstressed and "blew" how well would that air conditioner work? The nerves branching from the spine can act in a similar manner, meaning that if the nerve(s) supplying the stomach are overstressed and interfered with, the stomach may not "work" as well as it should.

Symptoms such as upset stomach, indigestion, and reflux may show up over time but does taking drugs to deal with those symptoms deal with the TRUE CAUSE of the issue ("blown fuse"), or simply attempt to cover them up? Chiropractic gets to the root CAUSE of the problem by removing interference from the system that "controls and coordinates all organs and structures of the body."

Your scans show the stress that is present on your nervous system, this chart shows what it may be doing to you.

Headaches/Migraines
ADD/ADHD
Sensory/Spectrum Disorders
Insomnia
High Blood Pressure
Reflux/G.I. Issues

Ear Infections/Aches
Chronic Fatigue
Anxiety
Depression
Memory Loss
Sinus Trouble
Allergies
Eye Pain

Fainting/Vertigo/Dizziness
Colds
Balance/Coordination Issues
Neuralgia
Acne/Eczema
Speech Problems
Epilepsy/Seizure

Hay Fever
Runny Nose
Swollen Adenoids
Laryngitis/Strep/Sore Throat
Tonsillitis
Croup
Chronic Cough
Stiff Neck/Shoulders

Bursitis
Thyroid Issues
Poor Metabolism
Poor Weight Regulation
Pain in Arms
Numbness/Tingling
Brachial Neuritis

Asthma
Cough/Cold
Breathing Trouble
Radiating Pain in Forearms/Wrists/Hands
Functional Heart Conditions

Chest Pain
Bronchitis
Pneumonia
Congestion
Chronic Colds/Flu
Reflux/GERD

Gallbladder Issues
Reflux/GERD
Jaundice
Liver Conditions
Fever
Blood Pressure/Circulation Issues

Heartburn
Stomach Problems: Pain/Indigestion/Ulcers
Blood Sugar Problems/Diabetes
Lowered Resistance
Shingles

Allergies
Poor Sympathetic Response
Immunity Issues
Excess Stress/Cortisol
Poor Metabolism
Hyperactivity
Kidney Troubles
Nephritis
Pyelitis
Chronic Fatigue
Rheumatism
Minor Varicose Veins
Skin Issues: Acne/Rash/Eczema/Boils

Constipation/Gas Pains
Irritable Bowel Syndrome
Colitis
Cramps
Diarrhea
Dysentery
Hernias
Bladder Issues
Menstrual Problems
Reproductive Issues/Infertility
Impotency

Sciatica/Radiating pain
Lumbopelvic Pain
Poor Circulation in Legs
Leg Weakness/Cramps
Foot/Ankle/Knee Pain
Constipation
Bladder/Bedwetting
Sacro-Iliac Pain
Spinal Curvatures
Disc Degeneration/Herniation

Hemorrhoids
Erectile Dysfunction
Prostate
Cold Feet
Swollen Ankles
Weak Ankles and Arches
Difficult, Painful, or Too Frequent Urination
